# SWOSTI

**Mental Health Services  
Post Graduate Department  
of Psychology  
Loreto College  
Kolkata**

**Free Services Provided for  
the Underprivileged  
(Psychological Assessment)**

1

The clinic provides ethical, evidence-based mental health services including, psychological assessments, and mental health awareness programs. A key focus of Swosti is supporting individuals from economically vulnerable backgrounds who would otherwise be unable to afford care.

2

Swosti Mental Health Services is a community-focused mental health clinic committed to making quality psychological care accessible to everyone, regardless of financial background. We believe mental wellbeing is a basic human right, not a privilege.

3

Through a subsidised and sliding-scale fee model, Swosti offers low-cost or free mental health services to people in need, including students, low-income families, survivors of trauma, and individuals facing social or emotional distress. Donations and funding support help bridge the gap between actual service costs and what clients can afford.

## Our Services

Swosti Mental Health Clinic provides free psychological assessment services when conducted by Postgraduate Psychology trainees, strictly under the expert supervision and guidance of faculty members. This ensures ethical practice, professional standards, and high-quality care while making services accessible to those in need.

## Invitation to Mental Health Professionals

Swosti – Mental Health Clinic, under the Postgraduate Department of Psychology, Loreto College, Kolkata, invites qualified and registered mental health professionals to utilize clinic space for professional practice.

### Eligible Professionals:

Clinical Psychologists | Counselling Psychologists | Psychiatrists | Special Educators

### Terms:

- Clinic space available on a per-patient revenue-sharing basis
- 70% consultation fee to Practitioner | 30% to Swosti
  - Basic infrastructure only provided
- Practitioners to manage their own clients, scheduling, documentation, and ethics

This initiative promotes ethical, accessible mental health care and academic-professional collaboration.
